1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ms. Dudek on August 20, 2004. The application has been amended as follows:

In claim 8, renumbered for issue as claim 1, on line 3, "an" has been changed to --the--.

Claim 10 has been canceled.

2. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach or suggest an ink jet recording medium having an outermost ink receiving layer comprising polyvinyl alcohol, silica and an uncross-linked epoxy compound as a cross-linking agent.

Claim 11 has been rejoined for allowance. It is noted that "coating said ink-receiving layer with the transparent film layer by heating" is the lamination referred to in claim 8. This heating step must be carried out at a temperature and for a time that cross-links the polyvinyl alcohol and epoxy compound in accordance with applicants' disclosure at page 11, the paragraph spanning lines 6-21.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
